Signature appearance is not proof

A synthetic invoice for inspecting digital signatures

EXAMPLE ONLY - NOT A REAL INVOICE

Invoice: DEMO-001

Seller: Example Studio

Buyer: Example Client

Item: Sample document review

Amount: $950.00

Alex Example

This visible typed name is only page content.

It does not itself create a cryptographic PDF signature.

Unsigned: no embedded digital signature.

Signed: the same invoice with a cryptographic signature.

Tampered: the signed amount changed from $150.00 to $950.00.

The example signer uses a temporary self-signed certificate.

It is not trusted by default and has no trusted timestamp.

Do not import example certificates into a device trust store.

```
Digital signature: synthetic example
Signer: HowCurio synthetic example signer
This certificate is not trusted by default.
```
